

Bianca Turner – Los Angeles / USA

Bianca Turner's paintings are deeply inspired by nature and its vivid colors and reflections of light. The shiny quality in her work created by mixing bright colored paint with glitter represents a fantasy world where her imagination and the elements of the universe intertwine.

Turner sees art as “the definition of infinity” and her work explores the continuous transmutation of the evolving essence of life and nature. Visions and words turn into colors and textures to create new narratives in this dimension of infinity. Turner is a self-taught artist, born in Alba-Iulia, Romania. She holds a PhD in International Economic Relations, a Master's degree in economics and a Bachelor degree in biochemistry. She also attended four years of postgraduate courses for marine biology.

Turner has painted since 2002 and lives in the USA since 1996. Her works hang in private and corporate international collections, and at Haegeumgang Museum in South Korea. Turner's artistic career has been featured in British Vogue, London Lux, House of Coco, Masters of Contemporary Art, Art in America, LA Voyage, and other specialty art magazines. She received the Woman Art Award from MUSA International Art Space in Madrid, Spain in 2018 and the Certificate of Excellence in Art from Creative Circle in Lyon, France.

Recently she was awarded with the Leonardo da Vinci International Prize - The Universal Artist, which she received in Florence, Italy, in January 2020. She currently lives in Los Angeles, California and works from her home studio. Her 2021 - 2023 art projects include solo and group exhibitions in Los Angeles, Shanghai, Buenos Aires, New York, Miami, Rome, Barcelona, and London, and a curatorial charity event for the underprivileged children from Los Angeles who are interested in art and have artistic inclinations.
