

Dear Street Art Friends,

After more than one year since the world we live has changed radically, we are convinced that we have all had special experiences and we invite you to meet virtually to talk about them and to define future possibilities for collaboration in the field of Street Art. In March 2020 for example, we initiated the project "[Virtual FISART - Making street art from home](#)" through which we managed to involve artists and cities from Europe, North and South America and we would be happy to present it to you.
