

The World is Your Canvas

Transforming latent urban surfaces into an explosive digital revolution

The Virtual Street Art arrived to Frankfurt

[\[Click to see locations before and after performing Virtual Street Art\]](#)

Stop seeing gray walls. Start seeing a borderless digital gallery. We are transforming the **latent potential** of our cities into an **explosively visible revolution**. Join the decentralized movement redefining urban design.

THE VISION	THE WORKS	THE NETWORK
The WWW of Art	Latent to Explosive	2026 & Beyond
Inspired by the decentralized spirit of Tim Berners-Lee and the pioneers of the Web. Discover how we decouple art from physical barriers to create a sustainable, global commons.	See the transformation in real-time. Explore our documented database of international virtual interventions from Frankfurt to Timișoara—where static architecture meets dynamic creativity.	Calling all visual artists, urban planners, and forward-thinking sponsors. We provide the infrastructure; you provide the vision. Let's build the "Virtual City of Future" together.

From 550 Real Murals to the Digital Frontier

VirtualStreetArtGlobal is led by **Dr.-Ing. Sergio Morariu** (Engineering) and **Dr. Corina Nani** (Design). Building on an 11-year legacy of 550+ physical works, we are now activating the next evolution of urban design. In collaboration with **Google for Nonprofits (G4NP)**, we combine engineering precision with the borderless freedom of the Open Web to transform the "City of Waste" into the "City of Virtual Design".
